## **Settlement Reached**

We are sad to announce, that due to the settlement out of court that D.A.D has had to accept this afternoon regarding the design of Molly, all items carrying the new design have to be redesigned.

"It didn't help our case", explained a hopeless Stig outside the lawyers offices, "that we have made a bunch of songs that our opponents did not approve of - Girl Nation, Riding With Sue, Siamese Twin, Indian Girl, ..."  
"But," Laust cuts in, "they seemed to like A Kiss Between The Legs, alright."

Furthermore D.A.D has had to agree that their next album will be an album of cover-songs of the greatest feminist agitation songs from 1975-1978. The album will be titled "In Utero" and produced by Cobber.

"We are sorry that we have to drag our fans through this", Jesper says, "But it's the only way to go. Cheer up, we will be back!"

The existing items will be removed from the website as soon as possible during next week.
