## **Upcoming Box Set**

The much hyped 25th Anniversary Box has been delayed and will instead be replaced by a different box expected to be released in 2010, which will then be named "D.A.D 26th Anniversary Box".

The original idea of collecting most of what D.A.D has released over the last 25 years and including previously unheard and discarded recordings has been abandoned.

Instead the 26th Anniversary Box will contain a so far unknown number of discs with all new material that the band hasn't yet recorded, which will be made together with an impressive number of guest artists.

"We are taking some time to do all the side-things we never had the chance to do during the first hectic 26 years", Jacob 'Cobber' Binzer says. "It's going to be a great excursion into uncharted territory."

Loke Bolt from the record company EMI is very enthusiastic about the direction the work with the box has taken: "We are going to cooperate with the least expected musicians, such as Michala Petri and Lars Hannibal."

Bolt continues: "Personally I'm looking much forward to the jazz oriented ballad 'Leaning On You (pt II)' (note: working title) where no other than Erik Jensen, the well known Danish rock critic of Politiken, will join D.A.D on guitar."

Expected release date of this new exciting box set will be end of March/start of April 2010. The price will be set at approximately what such boxes usually cost.
